Level 2: "Standards"

INTERNATIONAL STANDARDS

- WADA List of Prohibited Substances and Methods
- WADA Testing Standards
- WADA Laboratory Standards
- WADA Standards for Therapeutic Use exemptions

Explanation:

- Reference standards addressing particular aspects within anti-doping
- Used as a reference for accreditation and certification
- Updated and improved regularly by experts
- Ensure best practice and harmonisation
- Cross referenced in the Code

Level 3: "Models"

MODELS OF BEST PRACTICE

- Detailed model rules and regulations based on the Code
- Other model documents on best practices e.g. national legislation, national anti-doping programme, result management etc.

Explanation:

- Customized for each of the major groups of stakeholders
- Conform with and based on the Code
- Represent state of the art
- Present alternative options stakeholders may select:
 - o adopt fully or with modifications
 - o develop own rules and regulations etc. consistent with the Code
